

211 Connecting Point Database Inclusion/Exclusion Policy

The purpose of the 211 Database Inclusion/Exclusion policy is to ensure that the agencies that are listed represent and support the needs of residents served by 211 Connecting Point and adhere to the accreditation standards of Inform USA which require that our policy be uniform, fairly applied, and published online so that our staff and the public are aware of the scope and limitations of the database. We strive to meet the needs of our communities. Our Inclusion Criteria address the human service needs of all groups in the community, including government, nonprofit, and relevant for-profit organizations, and may include support groups that are not incorporated as organizations.

- 211 Connecting Point’s Database Inclusion/Exclusion Policy is reviewed and updated at least once every two years to ensure it meets the changing needs of the community.
- 211 Connecting Point reserves the right to delete any agency from the database when requests for updates are not provided.
